

Request for Proposal — Cloud Migration

Harbor Point Bank

RFP number	RFP-2026-CLOU543
Product category	Cloud & Platform Engineering
Issued	June 24, 2026
Questions due	July 04, 2026
Proposals due	July 24, 2026 by 5:00 PM local time
Anticipated award	August 14, 2026
Anticipated start	August 28, 2026
Estimated budget	\$200,000 – \$700,000

Sample document. This RFP is fictional and was generated for demonstration purposes. All organizations, names, figures, and details are invented and do not represent any real entity, price, or agreement.

1. Introduction

Harbor Point Bank (a regional community bank, based in Massachusetts) is seeking proposals from qualified software firms to deliver **Cloud Migration** — assessment, planning, and execution of a migration from on-premises or legacy hosting to a modern, cost-efficient cloud environment.

This Request for Proposal (RFP) describes our needs, the requirements a solution must meet, and the process for submitting a proposal.

2. Scope of work

The vendor will be responsible for the full delivery lifecycle, including discovery, design, development and configuration, integration, quality assurance, data migration where applicable, training and documentation, and deployment with post-launch support.

The capabilities we expect the solution to provide include:

- Migration assessment and readiness roadmap
- Landing-zone and network design
- Infrastructure-as-code environment build
- Application migration and validation
- Cost optimization and right-sizing
- Cutover and rollback planning

3. Requirements

At minimum, the solution must:

1. Move applications off on-premises or legacy hosting
2. Design a secure, well-architected cloud landing zone
3. Migrate with minimal downtime
4. Optimize and forecast cloud cost
5. Provide infrastructure-as-code for repeatability
6. Plan cutover and rollback

4. Integration requirements

The solution must integrate with our existing systems, including:

- Integration with existing on-prem systems during transition.

- Integration with the identity provider (SSO).
- Integration with monitoring and cost-management tooling.

Vendors should describe their approach to each integration and any assumptions.

5. Security and compliance requirements

The solution must adhere to **SOC 2, ISO/IEC 27001**, and vendors must describe:

- How data is encrypted in transit and at rest.
- How access is controlled (authentication, single sign-on, and roles).
- Their approach to security testing and vulnerability management.
- How the solution meets the accessibility and compliance frameworks above.

6. Success measures

We will consider this engagement successful if it achieves:

- applications migrated with minimal downtime
- a secure, repeatable landing zone in infrastructure-as-code
- cloud cost forecasted and optimized

7. Proposal requirements

Proposals must include, in order: (1) a cover letter, (2) an executive summary, (3) your understanding of our needs, (4) the proposed solution and technical approach, (5) a project plan and timeline, (6) the project team and key personnel, (7) relevant experience and at least three references, (8) itemized pricing with assumptions, and (9) assumptions, exclusions, and risks.

8. Evaluation criteria

Proposals will be scored on a 100-point scale:

Criterion	Weight
Technical approach and solution fit	30
Relevant experience and past performance	20
Project team qualifications	15
Cost and value	20
Project plan and timeline	10
References	5

9. Submission instructions

- Submit proposals electronically as a single PDF.
- Direct written questions to the contact below by **July 04, 2026**.
- Proposals are due by **July 24, 2026 at 5:00 PM local time**. Late submissions will not be considered.

10. Contact

Primary contact	Andrew Boyd
Title	Chief Information Officer
Organization	Harbor Point Bank
