

Request for Proposal — Loan Origination & Member Servicing Platform

Summit Ridge Credit Union

RFP number	RFP-2026-LOAN706
Product category	Industry Solutions
Issued	February 02, 2026
Questions due	February 12, 2026
Proposals due	March 04, 2026 by 5:00 PM local time
Anticipated award	March 25, 2026
Anticipated start	April 08, 2026
Estimated budget	\$400,000 – \$1,100,000

Sample document. This RFP is fictional and was generated for demonstration purposes. All organizations, names, figures, and details are invented and do not represent any real entity, price, or agreement.

1. Introduction

Summit Ridge Credit Union (a member-owned credit union, based in Utah) is seeking proposals from qualified software firms to deliver **Loan Origination & Member Servicing Platform** — a digital loan-application and decisioning workflow with a member self-service portal and staff underwriting and servicing tools.

This Request for Proposal (RFP) describes our needs, the requirements a solution must meet, and the process for submitting a proposal.

2. Scope of work

The vendor will be responsible for the full delivery lifecycle, including discovery, design, development and configuration, integration, quality assurance, data migration where applicable, training and documentation, and deployment with post-launch support.

The capabilities we expect the solution to provide include:

- Online loan application with document upload
- Automated pre-qualification and decisioning rules
- Member self-service portal for status and payments
- Staff underwriting and servicing workspace
- Configurable approval workflows and audit trail
- E-signature for closing documents

3. Requirements

At minimum, the solution must:

1. Digitize loan applications and decisioning
2. Shorten loan decision times
3. Give members self-service status and payments
4. Provide staff underwriting and servicing tools
5. Maintain a full audit trail for compliance
6. Integrate with core banking and credit data

4. Integration requirements

The solution must integrate with our existing systems, including:

- Integration with the core banking system.

- Integration with a credit-bureau / decisioning data provider.
- Integration with document-management and e-signature systems.

Vendors should describe their approach to each integration and any assumptions.

5. Security and compliance requirements

The solution must adhere to **SOC 2, GLBA, WCAG 2.1 AA**, and vendors must describe:

- How data is encrypted in transit and at rest.
- How access is controlled (authentication, single sign-on, and roles).
- Their approach to security testing and vulnerability management.
- How the solution meets the accessibility and compliance frameworks above.

6. Success measures

We will consider this engagement successful if it achieves:

- average loan decision time reduced from days to hours
- majority of applications submitted digitally
- a full audit trail available for regulatory reporting

7. Proposal requirements

Proposals must include, in order: (1) a cover letter, (2) an executive summary, (3) your understanding of our needs, (4) the proposed solution and technical approach, (5) a project plan and timeline, (6) the project team and key personnel, (7) relevant experience and at least three references, (8) itemized pricing with assumptions, and (9) assumptions, exclusions, and risks.

8. Evaluation criteria

Proposals will be scored on a 100-point scale:

Criterion	Weight
Technical approach and solution fit	30
Relevant experience and past performance	20
Project team qualifications	15
Cost and value	20
Project plan and timeline	10
References	5

9. Submission instructions

- Submit proposals electronically as a single PDF.
- Direct written questions to the contact below by **February 12, 2026**.
- Proposals are due by **March 04, 2026 at 5:00 PM local time**. Late submissions will not be considered.
