Cascade Family Medicine

RFP number	RFP-2026-PATI805
Product category	Industry Solutions
Issued	May 23, 2026
Questions due	June 02, 2026
Proposals due	June 22, 2026 by 5:00 PM local time
Anticipated award	July 13, 2026
Anticipated start	July 27, 2026
Estimated budget	\$300,000 – \$800,000

Sample document. This RFP is fictional and was generated for demonstration purposes. All organizations, names, figures, and details are invented and do not represent any real entity, price, or agreement.

1. Introduction

Cascade Family Medicine (a multi-specialty physician group, based in Oregon) is seeking proposals from qualified software firms to deliver **Patient Engagement Portal** — a secure, HIPAA-aligned patient portal for scheduling, digital intake, secure messaging, and access to records, integrated with the EHR.

This Request for Proposal (RFP) describes our needs, the requirements a solution must meet, and the process for submitting a proposal.

2. Scope of work

The vendor will be responsible for the full delivery lifecycle, including discovery, design, development and configuration, integration, quality assurance, data migration where applicable, training and documentation, and deployment with post-launch support.

The capabilities we expect the solution to provide include:

- Online appointment scheduling and rescheduling
- Digital intake and consent forms
- Secure two-way patient–care-team messaging
- Access to visit summaries, results, and medications
- Automated appointment reminders (SMS/email)
- Online bill review and payment

3. Requirements

At minimum, the solution must:

1. Give patients self-service scheduling and intake
2. Reduce call-center volume and no-shows
3. Provide secure messaging with care teams
4. Let patients view records and pay bills online
5. Integrate with the EHR via HL7/FHIR
6. Meet HIPAA and accessibility requirements

4. Integration requirements

The solution must integrate with our existing systems, including:

- Integration with the EHR via HL7/FHIR.

- Integration with the practice-management/scheduling system.
- Integration with a payment processor.

Vendors should describe their approach to each integration and any assumptions.

5. Security and compliance requirements

The solution must adhere to **HIPAA, WCAG 2.1 AA**, and vendors must describe:

- How data is encrypted in transit and at rest.
- How access is controlled (authentication, single sign-on, and roles).
- Their approach to security testing and vulnerability management.
- How the solution meets the accessibility and compliance frameworks above.

6. Success measures

We will consider this engagement successful if it achieves:

- 20% reduction in no-show rate within 12 months
- 40% of appointments booked online within 6 months
- measurable reduction in inbound scheduling calls

7. Proposal requirements

Proposals must include, in order: (1) a cover letter, (2) an executive summary, (3) your understanding of our needs, (4) the proposed solution and technical approach, (5) a project plan and timeline, (6) the project team and key personnel, (7) relevant experience and at least three references, (8) itemized pricing with assumptions, and (9) assumptions, exclusions, and risks.

8. Evaluation criteria

Proposals will be scored on a 100-point scale:

Criterion	Weight
Technical approach and solution fit	30
Relevant experience and past performance	20
Project team qualifications	15
Cost and value	20
Project plan and timeline	10
References	5

9. Submission instructions

- Submit proposals electronically as a single PDF.
- Direct written questions to the contact below by **June 02, 2026**.
- Proposals are due by **June 22, 2026 at 5:00 PM local time**. Late submissions will not be considered.
