Issued	June 24, 2026
Questions due	July 04, 2026
Proposals due	July 24, 2026 by 5:00 PM local time
Anticipated award	August 14, 2026
Anticipated start	August 28, 2026
Estimated budget	\$150,000 – \$400,000

Sample document. This RFP is fictional and was generated for demonstration purposes. All organizations, names, figures, and details are invented and do not represent any real entity, price, or agreement.

1. Introduction

Trailhead Outfitters (a specialty outdoor-gear retailer with 90 stores, based in Colorado) is seeking proposals from qualified software firms to deliver **Business Intelligence & Dashboards** — design and delivery of governed, self-service dashboards and reporting that give business users answers without waiting on IT.

This Request for Proposal (RFP) describes our needs, the requirements a solution must meet, and the process for submitting a proposal.

2. Scope of work

The vendor will be responsible for the full delivery lifecycle, including discovery, design, development and configuration, integration, quality assurance, data migration where applicable, training and documentation, and deployment with post-launch support.

The capabilities we expect the solution to provide include:

- Executive and operational dashboards
- Self-service reporting for business users
- Governed metric definitions everyone shares
- Scheduled and ad-hoc report export
- Drill-down from summary to detail
- Role-based access to sensitive views

3. Requirements

At minimum, the solution must:

1. Replace static reports with interactive dashboards
2. Let business users answer their own questions
3. Agree on shared, governed metric definitions
4. Support scheduled and ad-hoc exports
5. Enforce role-based access to sensitive data
6. Connect to existing data sources

4. Integration requirements

The solution must integrate with our existing systems, including:

- Integration with the data warehouse or source systems.

- Integration with the identity provider (SSO).
- Integration with email/scheduling for report delivery.

Vendors should describe their approach to each integration and any assumptions.

5. Security and compliance requirements

The solution must adhere to **SOC 2**, **WCAG 2.1 AA**, and vendors must describe:

- How data is encrypted in transit and at rest.
- How access is controlled (authentication, single sign-on, and roles).
- Their approach to security testing and vulnerability management.
- How the solution meets the accessibility and compliance frameworks above.

6. Success measures

We will consider this engagement successful if it achieves:

- static reports replaced by interactive dashboards
- self-service adoption by business teams
- a shared, governed set of metric definitions in use

7. Proposal requirements

Proposals must include, in order: (1) a cover letter, (2) an executive summary, (3) your understanding of our needs, (4) the proposed solution and technical approach, (5) a project plan and timeline, (6) the project team and key personnel, (7) relevant experience and at least three references, (8) itemized pricing with assumptions, and (9) assumptions, exclusions, and risks.

8. Evaluation criteria

Proposals will be scored on a 100-point scale:

Criterion	Weight
Technical approach and solution fit	30
Relevant experience and past performance	20
Project team qualifications	15
Cost and value	20
Project plan and timeline	10
References	5

9. Submission instructions

- Submit proposals electronically as a single PDF.
- Direct written questions to the contact below by **July 04, 2026**.
- Proposals are due by **July 24, 2026 at 5:00 PM local time**. Late submissions will not be considered.
