

Request for Proposal — Constituent Services & Permitting Portal

City of Lakemont

RFP number	RFP-2026-CONS453
Product category	Industry Solutions
Issued	August 17, 2026
Questions due	August 27, 2026
Proposals due	September 16, 2026 by 5:00 PM local time
Anticipated award	October 07, 2026
Anticipated start	October 21, 2026
Estimated budget	\$350,000 – \$950,000

Sample document. This RFP is fictional and was generated for demonstration purposes. All organizations, names, figures, and details are invented and do not represent any real entity, price, or agreement.

1. Introduction

City of Lakemont (a mid-size municipal government, based in Michigan) is seeking proposals from qualified software firms to deliver **Constituent Services & Permitting Portal** — a public-facing portal that moves permitting, licensing, and service requests online, with case tracking and configurable review workflows for staff.

This Request for Proposal (RFP) describes our needs, the requirements a solution must meet, and the process for submitting a proposal.

2. Scope of work

The vendor will be responsible for the full delivery lifecycle, including discovery, design, development and configuration, integration, quality assurance, data migration where applicable, training and documentation, and deployment with post-launch support.

The capabilities we expect the solution to provide include:

- Online application submission for permits and licenses
- Document upload and applicant status tracking
- Configurable staff review and approval workflows
- Online fee payment and receipts
- Public dashboard of status and processing times
- Notifications for status changes and actions needed

3. Requirements

At minimum, the solution must:

1. Move paper and counter processes online
2. Let constituents apply, pay, and track status online
3. Give staff configurable review workflows
4. Publish processing times transparently
5. Meet Section 508 / accessibility requirements
6. Integrate with GIS, payments, and records systems

4. Integration requirements

The solution must integrate with our existing systems, including:

- Integration with the GIS / land-management system.

- Integration with the municipal payment gateway.
- Integration with the records-management system.

Vendors should describe their approach to each integration and any assumptions.

5. Security and compliance requirements

The solution must adhere to **Section 508, WCAG 2.1 AA, state records-retention rules**, and vendors must describe:

- How data is encrypted in transit and at rest.
- How access is controlled (authentication, single sign-on, and roles).
- Their approach to security testing and vulnerability management.
- How the solution meets the accessibility and compliance frameworks above.

6. Success measures

We will consider this engagement successful if it achieves:

- at least 15 paper workflows moved fully online
- average permit processing time reduced by 30%
- self-service adoption by a majority of applicants

7. Proposal requirements

Proposals must include, in order: (1) a cover letter, (2) an executive summary, (3) your understanding of our needs, (4) the proposed solution and technical approach, (5) a project plan and timeline, (6) the project team and key personnel, (7) relevant experience and at least three references, (8) itemized pricing with assumptions, and (9) assumptions, exclusions, and risks.

8. Evaluation criteria

Proposals will be scored on a 100-point scale:

Criterion	Weight
Technical approach and solution fit	30
Relevant experience and past performance	20
Project team qualifications	15
Cost and value	20
Project plan and timeline	10
References	5

9. Submission instructions

- Submit proposals electronically as a single PDF.
- Direct written questions to the contact below by **August 27, 2026**.
- Proposals are due by **September 16, 2026 at 5:00 PM local time**. Late submissions will not be considered.

10. Contact

Primary contact	James Whitfield
