

Request for Proposal — API Development & Management

Summit Ridge Credit Union

RFP number	RFP-2026-API-188
Product category	Integration & APIs
Issued	May 14, 2026
Questions due	May 24, 2026
Proposals due	June 13, 2026 by 5:00 PM local time
Anticipated award	July 04, 2026
Anticipated start	July 18, 2026
Estimated budget	\$170,000 – \$450,000

Sample document. This RFP is fictional and was generated for demonstration purposes. All organizations, names, figures, and details are invented and do not represent any real entity, price, or agreement.

1. Introduction

Summit Ridge Credit Union (a member-owned credit union, based in Utah) is seeking proposals from qualified software firms to deliver **API Development & Management** — design, build, and management of secure, documented APIs that expose the organization's systems and data for internal and partner use.

This Request for Proposal (RFP) describes our needs, the requirements a solution must meet, and the process for submitting a proposal.

2. Scope of work

The vendor will be responsible for the full delivery lifecycle, including discovery, design, development and configuration, integration, quality assurance, data migration where applicable, training and documentation, and deployment with post-launch support.

The capabilities we expect the solution to provide include:

- RESTful API design following clear standards
- API gateway, authentication, and rate limiting
- Interactive, versioned API documentation
- Developer onboarding and access management
- Usage monitoring and analytics
- Backward-compatible versioning

3. Requirements

At minimum, the solution must:

1. Expose internal systems and data through secure APIs
2. Govern access with authentication and rate limiting
3. Provide clear, versioned documentation
4. Onboard internal or partner developers
5. Monitor API usage and performance
6. Support backward-compatible versioning

4. Integration requirements

The solution must integrate with our existing systems, including:

- Integration with the systems of record being exposed.

- Integration with the identity provider (SSO / OAuth).
- Integration with the API gateway and monitoring tools.

Vendors should describe their approach to each integration and any assumptions.

5. Security and compliance requirements

The solution must adhere to **SOC 2, data-governance and retention policies**, and vendors must describe:

- How data is encrypted in transit and at rest.
- How access is controlled (authentication, single sign-on, and roles).
- Their approach to security testing and vulnerability management.
- How the solution meets the accessibility and compliance frameworks above.

6. Success measures

We will consider this engagement successful if it achieves:

- systems exposed through secure, documented APIs
- developer onboarding self-service and governed
- API usage monitored and performant

7. Proposal requirements

Proposals must include, in order: (1) a cover letter, (2) an executive summary, (3) your understanding of our needs, (4) the proposed solution and technical approach, (5) a project plan and timeline, (6) the project team and key personnel, (7) relevant experience and at least three references, (8) itemized pricing with assumptions, and (9) assumptions, exclusions, and risks.

8. Evaluation criteria

Proposals will be scored on a 100-point scale:

Criterion	Weight
Technical approach and solution fit	30
Relevant experience and past performance	20
Project team qualifications	15
Cost and value	20
Project plan and timeline	10
References	5

9. Submission instructions

- Submit proposals electronically as a single PDF.
- Direct written questions to the contact below by **May 24, 2026**.
- Proposals are due by **June 13, 2026 at 5:00 PM local time**. Late submissions will not be considered.

10. Contact

Primary contact	Michelle Torres
Title	Director of Digital Services
Organization	Summit Ridge Credit Union
