Past Performance & References

Sample content. Aventra Software Group is a fictional company used for demonstration. Every organization, figure, client, and outcome in this document is invented and does not describe any real entity or engagement.

Representative engagements, organised by industry. Use these to answer relevant-experience questions, which typically carry 15–25% of an evaluation scorecard. Client names are withheld here; named references are released on request under the policy below.

Healthcare

- Built a patient intake and scheduling portal for a 6-clinic regional provider, cutting no-show rates by 22% in the first year.
- Modernized a HL7/FHIR integration layer connecting an EHR to three specialty systems, retiring 40,000 lines of legacy code.

Government

- Delivered a public permits-and-licensing portal for a mid-size county, moving 18 paper workflows online.
- Rebuilt a benefits eligibility screening tool used by 400 caseworkers, meeting Section 508 accessibility standards.

Education

- Developed a unified student services platform for a community college district serving 30,000 students.
- Integrated a learning management system with an SIS and financial aid system, eliminating dual data entry.

Financial services

- Built a loan-origination workflow platform for a regional credit union, reducing average decision time from days to hours.
- Delivered a compliance reporting data warehouse consolidating 12 source systems.

Manufacturing

- Created a plant-floor production tracking application replacing a spreadsheet-based process across 4 facilities.
- Integrated an ERP with shop-floor IoT sensors for real-time OEE dashboards.

Retail

- Built an omnichannel inventory and order-management platform for a 120-store specialty retailer.

- Delivered a customer loyalty and promotions engine integrated with the point-of-sale system.

Nonprofit

- Developed a donor and grant management system for a national nonprofit, unifying three disconnected databases.
- Built a volunteer coordination and impact-reporting platform used across 60 chapters.

Reference policy

- We provide at least three references from comparable engagements, matched by industry and project type, on request.
- References are released only with the client's prior consent, so allow five business days when a submission requires named contacts.
- Each reference is supplied with a summary of the work delivered and the outcomes achieved.
- If a solicitation requires named references at submission rather than on request, raise it with the bid lead before drafting — it changes the timeline.

Certifications

- SOC 2 Type II
- ISO/IEC 27001:2022
- HIPAA-aligned engineering practices
- AWS Advanced Consulting Partner
- Microsoft Solutions Partner (Digital & App Innovation)

This list is exhaustive. Any certification not named here is one Aventra does not hold — say so plainly in a response rather than implying equivalence.
