

OFFERING DATASHEET

Constituent Services & Permitting Portal

Move permits, licensing, and requests online.

Sample content. Aventra Software Group is a fictional company used for demonstration. Every organization, figure, client, and outcome in this document is invented and does not describe any real entity or engagement.

Offering ID	constituent-portal
Product line	Industry Solutions
Best fit for	government
Compliance frameworks	Section 508, WCAG 2.1 AA, state records-retention rules
Pricing model	Fixed price per phase, invoiced on milestones
Indicative range	\$350,000 – \$950,000
Typical duration	10 months

Scope

A public-facing portal that moves permitting, licensing, and service requests online, with case tracking and configurable review workflows for staff.

Capabilities delivered

Describe these in the proposed-solution section of a response.

- Online application submission for permits and licenses
- Document upload and applicant status tracking
- Configurable staff review and approval workflows
- Online fee payment and receipts
- Public dashboard of status and processing times
- Notifications for status changes and actions needed

Requirements this offering answers

If an RFP asks for these, this offering is the right match.

- Move paper and counter processes online
- Let constituents apply, pay, and track status online
- Give staff configurable review workflows
- Publish processing times transparently
- Meet Section 508 / accessibility requirements
- Integrate with GIS, payments, and records systems

Integrations

Name the buyer's actual systems when the RFP identifies them; these are the fallback.

- The GIS / land-management system
- The municipal payment gateway
- The records-management system

Differentiators

- Accessibility and transparency built in for public sector
- Configurable workflows for many permit and license types

Success measures buyers care about

Mirror these in an executive summary when the RFP states similar goals.

- At least 15 paper workflows moved fully online
- Average permit processing time reduced by 30%
- Self-service adoption by a majority of applicants

Approved positioning language

Adapt the wording to the buyer's own terms; keep the substance intact.

Understanding of needs

Your constituents still fill out paper and stand in line, and staff track cases by hand. You need a transparent, accessible portal that moves these workflows online.

Proposed solution

We will deliver a public portal for permits, licensing, and service requests: online applications and payments, document upload and status tracking, configurable staff review workflows, and a public dashboard of processing times — meeting Section 508 and your records-retention rules.
