

OFFERING DATASHEET

Application Managed Services

We keep your software healthy so your team can focus.

Sample content. Aventra Software Group is a fictional company used for demonstration. Every organization, figure, client, and outcome in this document is invented and does not describe any real entity or engagement.

Offering ID	managed-services
Product line	Managed Services & Security
Best fit for	healthcare, financial services, government, manufacturing, retail, education, nonprofit
Compliance frameworks	SOC 2, ISO/IEC 27001
Pricing model	Monthly retainer by service tier
Indicative range	\$120,000 – \$480,000
Typical duration	12 months

Scope

Ongoing operation, support, monitoring, and enhancement of an existing application under a defined service-level agreement.

Capabilities delivered

Describe these in the proposed-solution section of a response.

- 24/7 monitoring and incident response
- Tiered support with defined SLAs
- Patching, updates, and dependency management
- Backlog of enhancements and small changes
- Performance and cost optimization
- Regular service reviews and reporting

Requirements this offering answers

If an RFP asks for these, this offering is the right match.

- Ongoing support and maintenance of an application
- Defined service levels and response times
- Proactive monitoring and incident response
- Regular patching and updates
- A path for enhancements and small changes
- Transparent reporting on service performance

Integrations

Name the buyer's actual systems when the RFP identifies them; these are the fallback.

- The application's cloud environment
- Monitoring/alerting and ticketing tools
- The identity provider (SSO)

Differentiators

- A named support lead who knows your system
- Enhancements included, not just break-fix

Success measures buyers care about

Mirror these in an executive summary when the RFP states similar goals.

- Service levels met or exceeded each period
- Incidents resolved within target response times
- A steady stream of enhancements delivered

Approved positioning language

Adapt the wording to the buyer's own terms; keep the substance intact.

Understanding of needs

You have software that needs to stay reliable, secure, and improving, but you don't want to staff a full team to run it. You need a dependable managed-service partner with real service levels.

Proposed solution

We will operate and support your application under a defined SLA: 24/7 monitoring and incident response, regular patching, tiered support with a named lead, and a running backlog of enhancements — with transparent service reviews and reporting.
