

OFFERING DATASHEET

Patient Engagement Portal

Self-service scheduling, intake, and messaging for patients.

Sample content. Aventra Software Group is a fictional company used for demonstration. Every organization, figure, client, and outcome in this document is invented and does not describe any real entity or engagement.

Offering ID	patient-portal
Product line	Industry Solutions
Best fit for	healthcare
Compliance frameworks	HIPAA, WCAG 2.1 AA
Pricing model	Fixed price by workstream, invoiced on milestones
Indicative range	\$300,000 – \$800,000
Typical duration	9 months

Scope

A secure, HIPAA-aligned patient portal for scheduling, digital intake, secure messaging, and access to records, integrated with the EHR.

Capabilities delivered

Describe these in the proposed-solution section of a response.

- Online appointment scheduling and rescheduling
- Digital intake and consent forms
- Secure two-way patient-care-team messaging
- Access to visit summaries, results, and medications
- Automated appointment reminders (SMS/email)
- Online bill review and payment

Requirements this offering answers

If an RFP asks for these, this offering is the right match.

- Give patients self-service scheduling and intake
- Reduce call-center volume and no-shows
- Provide secure messaging with care teams
- Let patients view records and pay bills online
- Integrate with the EHR via HL7/FHIR
- Meet HIPAA and accessibility requirements

Integrations

Name the buyer's actual systems when the RFP identifies them; these are the fallback.

- The EHR via HL7/FHIR
- The practice-management/scheduling system
- A payment processor

Differentiators

- HIPAA-aligned engineering with FHIR expertise
- Configurable to your specialties and workflows

Success measures buyers care about

Mirror these in an executive summary when the RFP states similar goals.

- 20% reduction in no-show rate within 12 months
- 40% of appointments booked online within 6 months
- Measurable reduction in inbound scheduling calls

Approved positioning language

Adapt the wording to the buyer's own terms; keep the substance intact.

Understanding of needs

Your patients expect the same self-service they get everywhere else, and your staff are buried in scheduling calls and paper intake. You need a secure portal integrated with your EHR.

Proposed solution

We will deliver a HIPAA-aligned patient portal — online scheduling, digital intake and consent, secure messaging, records access, reminders, and online bill pay — integrated with your EHR via HL7/FHIR and your scheduling and payment systems.
